

Couplings

POMMIER
innovative solutions for trucks

OEM
SOLUTIONS

The expertise of an industry leader, the attention of a partner

Our extensive know-how is at your service to meet all your needs for couplings, the historical core business of Pommier, well known for being robust and easy to use. Our most important asset: our Design Office, which can take into account even the most specialised needs, and an OEM Solutions team that works closely with you throughout your projects.

WHAT WE CAN OFFER YOU

SOLUTIONS FOR ALL CONFIGURATIONS

Our solutions are designed for all types of transport and vehicles: from light utility vehicles to industrial vehicles for each sector (cargo transport, public works and even defence). All our products comply with current standards and regulations.

SOLUTIONS THAT SATISFY ALL REQUIREMENTS

All our models meet the specific needs of the road transport industry. They can be supplemented by a wide variety of accessories and options: play adjustment, guiding ramps, remote controls, rear-view camera, etc.

They make coupling operations easier and enhance driver comfort. To perfectly target current needs and functions, surveys are performed with a select group of users during the development phase.

SOLUTIONS FOCUSED ON SAFETY

In their role as active safety components, couplings have a direct impact on the safety of vehicle operators and their working environment. Our products can withstand up to 50 tons, requiring design configurations for convoys. That's why our teams are available to help you select the right solution for the right use, thereby guaranteeing personal safety and the safety of your cargo.

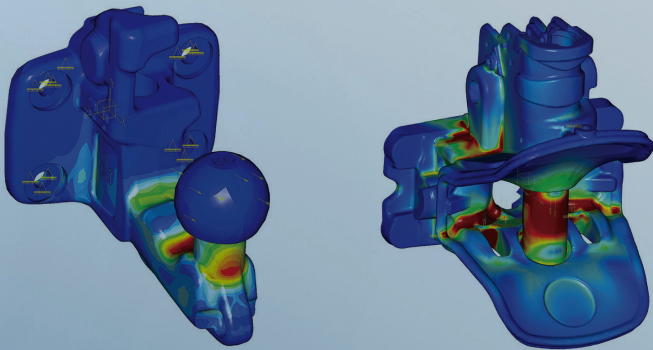

TIME-TESTED SOLUTIONS

The mechanical strength of our equipment is tested and approved as per the requirements of Regulation 55. The tests are performed by external laboratories such as UTAC and TÜV.

We check:

- their mechanical strength (fatigue tests under load/uniaxial and biaxial testing on 2 million cycles),
- their durability (opening/closing cycles),
- their ability to withstand different thermal environments (from -20° to +60°),
- their corrosion resistance (salt spray resistance).

Before being placed on the market, our products undergo field tests to ensure they comply with their working environment.

Our wide range of expertise is at your service

At POMMIER, you can benefit from our in-depth knowledge of accessories and equipment in 5 product universes to optimize the performance levels of your vehicle.

COUPLINGS

PROTECTION

FIXINGS

OPENINGS

LIGHTING

Tell us about your needs, your expectations and your requirements. We're ready to take on any challenge.

Our products

Hooks, towing yokes, coupling heads, rings, towing bars, etc.

Towing yoke **93A**

Bolt coupling **EUROTRACT**

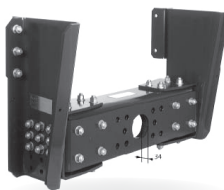

Coupling **64 CP1**

Ball coupling **70C**

Mixed coupling **MULTIS**

26T tow bar

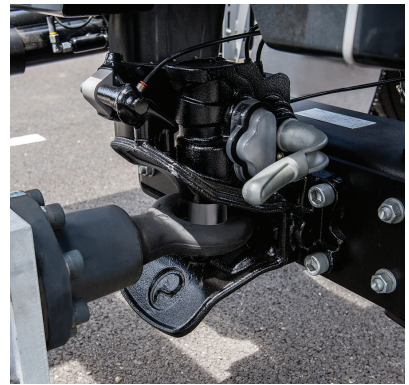

BNA rotating coupling head

BNA coupling head

FOCUS ON

KONEXO

This new coupling is intended for industrial trucks. Its robust mono-block design makes it possible to improve the mechanical performances that are expected from a fixed coupling on a lower tow bar. This model can be equipped with a guiding ramp, and is offered with options to improve user comfort and meet the needs of each specific sector.

Ready to meet all of your needs

FOR YOUR **MANUFACTURER**

YOUR TOP PRIORITY IS RELIABILITY.

The durability of our products has been proven and tested.

YOU WANT TO SAVE TIME.

We remain focused on the "installation" aspects, offering simple and quick assembly solutions.

YOU CARE ABOUT THE ENVIRONMENT.

We incorporate our eco-design process throughout our development phase.

YOU WANT VEHICLES THAT REFLECT YOUR CORPORATE IMAGE.

Our customisation options will enable you to be a difference-maker.

YOU WANT TO IMPROVE PRODUCTIVITY.

We include costs in all the development phases of our products.

FOR YOUR CUSTOMER **OPERATORS**

- **OPTIMAL SAFETY** FOR DRIVERS AND CARGO TRANSPORT.
- MORE **USER-FRIENDLY** AND **EASIER TO USE**.

- **LESS TIME REQUIRED** FOR COUPLING.
- A **WIDE RANGE OF CONFIGURATIONS** AND OPTIONS AVAILABLE.

2 PRODUCTION SITES DEDICATED TO COUPLINGS AT YOUR SERVICE
